Historical Unemployment Rates

Historical unemployment rate data prior to 2014 for the Metropolitan Statistical Areas (MSAs) is currently unavailable due to the MSA redefinition process. This process redefines the metropolitan geographies using Census and worker commuting patterns data and is conducted by the Whitehouse Office of Management and Budget. Updated historical MSA unemployment data will be available on March 27, 2015 when the Texas Workforce Commission releases state and sub-state estimates for February 2015.
